#### Fann A Porter

Housed inside a converted villa in Jumeirah, The Workshop is a multipurpose space that includes a gallery, an antique shop, a café and an interior design studio. Fann A Porter, the gallery housed within, highlights local and regional up-and-coming artists in some of the most beautiful exhibitions in town. Among those represented at Fann A Porter are painter Nidal Khaddour, who takes inspiration from the “sociopolitical state around him”, and New York-based painter Juri Morioka, who finds inspiration in Zen.
