Meet us at Fann A Porter in Dubai till January 20, 2025.

Step into Marina Fedorova's cosmic dreamscape, where art meets the mysteries of the universe. Since its inception in 2017, the COSMODREAMS series has blossomed into a self-contained artistic galaxy, brimming with vibrant life and imagination. From mesmerizing paintings and intricate graphic art to limited-edition color prints, cutting-edge 3D creations, and augmented reality-enhanced digital works, this exhibition is an otherworldly experience.

Fedorova's art draws from the forces that shape our existence, water, air, and earth, capturing mists, waterfalls, and clouds in striking detail. These elements ripple through her creations, intertwining nature's beauty with the wonders of the cosmos. But her vision doesn't stop at the natural world; it extends to the interplay between humanity and its environment, imagining futuristic cities, cultural shifts, scientific marvels, and material achievements.

Through a blend of traditional and high-tech media, Fedorova bridges the vastness of space and the intimacy of daily life, offering a thought-provoking look at humanity's evolving relationship with technology and the universe. Don't miss this chance to journey through the infinite realms of COSMODREAMS: ELEMENTA, an art experience unlike any other.
